

HERITAGE STEEL & ENGG. CO.

AN ISO 9001 : 2015 CERTIFIED COMPANY

INSTRUMENTATION SOLUTIONS PROVIDER FOR

WATER

PROCESS

GAS

ENVIRONMENT

HERITAGE STEEL & ENGG. CO.

ABOUT US

We are a **premium manufacturer of Water Quality Analysers**. We manufacture a range of world class instruments for measurement of parameters in water.

Along with manufacturing we also provide **solutions for Real Time Monitoring of various Analytical parameters** as per the needs of the application in Water, Gas & process measurements.

Right from design to commissioning, our analyser systems include sample handling systems etc.

We implement systems to **measure and report data accurately**.

Along with this, our strength lies in integrating a **customised system**.

We are committed to our goal of providing the best solutions in Analytical Instrumentation.

We have presence spread across India either through our direct team or qualified and well-trained Channel Partners.

Having worked on several Projects with leading EPCs, consultants and licensors, we have ample expertise to serve this domain.

WHAT WE DO

- Associations with world Leaders in analytical Technology
- System integration & sample Handling Systems
- Manufacturer of online water quality analysers
Providers of gas analysers
- Environment monitoring systems
- Safety alarm and shutdown systems

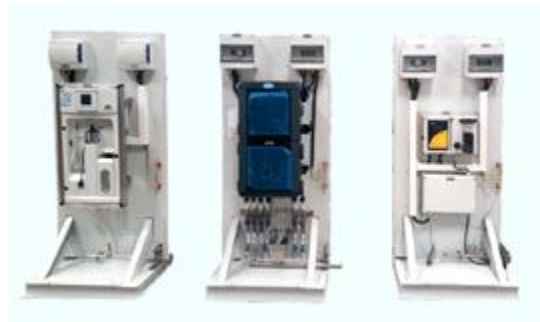

HERITAGE STEEL & ENGG. CO.

OUR STRENGTHS

We are quipped with sufficient technological knowhow to provide qualitative instrumental/ analytical solutions to our customers.

With state of the art technologies we are equally competing with top manufacturers

Additionally we are also associated with leading suppliers worldwide

HERITAGE STEEL & ENGG. CO.

PRODUCTS OFFERED

Water Quality Analysers

Gas Analysers

HERITAGE STEEL & ENGG. CO.

ENVIRONMENTAL SOLUTIONS

We provide solutions for Effluent Quality Monitoring Systems (EQMS) and continuous emission monitoring Systems (CEMS) and the relevant software for regulatory compliance with Pollution Control Boards.

Parameters covered are :

- COD / BOD / TSS / pH
- Ammoniacal Nitrogen / Total Nitrogen / Phosphorous
- Chromium; Phenols; Cyanides and many more.

Real Time Report

Data last received on
2 minutes ago

CPCB Last Update Time
23 minutes ago

66.23 mg/l
ETP_1_Outlet-BOD
15 Min Avg: 69.31 mg/l
Limit: 100 mg/l Range: 0 - 1000

91.85 mg/l
ETP_1_Outlet-COD
15 Min Avg: 95.80 mg/l
Limit: 250 mg/l Range: 0 - 1000

83.0 mg/l
ETP_1_Outlet-TSS
15 Min Avg: 82.00 mg/l
Limit: 100 mg/l Range: 0 - 1000

7.32 pH
ETP_1_Outlet-pH
15 Min Avg: 7.41 pH
Limit: 6.0 - 8.5 pH Range: 0 - 14

SAMPLE HANDLING SYSTEMS AND INTEGRATION

We provide the necessary sample handling and integrated sub-systems useful for the good performance of the analyser systems.
